*We Identify and **S.T.O.P.** Your Noise Problems*

Talk Light™ Time Management Noise and Time Management System

Features:

- Portable for usage in different locations
- Flexible software that operates on a PC or Laptop
- Programs can be written, stored and activated as needed
- Number of programs are limited only to storage availability on your computer
- Remotely start, pause and stop timed functions with the optional remote control
- All the same benefits of the Talk Light Too with automated time management.

Technical Information:

- Light is 18" tall, 6" wide, and 4" deep
- Approximately 4 lbs.
- Uses Automotive light bulbs which are easy to replace
- Standard power outlet, 6' power cord provided
- Can be mounted on the wall or placed on a table

A self-programmable traffic light designed for time sensitive applications. The flexibility of the software allows the user to design the program for presentations, testing, training or other various timed events. The light can run either attached to the PC or remotely once a program has been loaded.

Talk Light Time Manager is a smaller version of the full-sized Talk Light. It is designed to monitor the noise level in small cafeterias, classrooms, libraries and other common areas where noise level is a concern. The Talk Light Time Manager can be mounted on the wall or placed on a table. It comes with all the features and technology found in the original Talk Light, but in a more portable size.

The programmable Time Manager is designed to time events such as presentations, debates, circuit training, tournaments or any other time sensitive applications. There is also an optional remote control that can be used to change the colors of the light and remotely start, pause and stop timed functions.

Dimensions:

18" Tall,
6" Wide,
4" Deep

Weight:

4 lbs.

Power Requirements:

Standard grounded power outlet.
6' power cord provided.

Light Bulbs:

Glass wedge base #918. Available at home improvement stores and automotive supply stores.

Sensitivity:

Adjustable from 54db to over 100db

Case Material:

Steel, painted traffic light yellow.
