- Standard power outlet, 6' power cord provided
- Can be mounted on the wall or placed on a table

Additional Applications:

- Child care facilities
- Churches
- Testing
- Presentations
- Notification of transition
- Hard of hearing/deaf

Talk Light Too is a smaller version of the full-sized Talk Light. It is designed to monitor the noise level in small cafeterias, classrooms, libraries and other common areas where noise level is a concern. The Talk Light Too can be mounted on the wall or placed on a table. It comes with all the features and technology found in the original Talk Light, but in a more portable size.

The manual or programmable Time Manager is designed to time events such as presentations, debates, circuit training, tournaments or any other time sensitive applications. There is also an optional remote control that can be used to change the colors of the light.

Talk Light™ Too

Optional Accessories

TALK LIGHT™ Too Remote Control

The hand-held remote control allows the user to override the noise management function of the light. The light can be changed from green, yellow, yellow flashing, red and back to noise management with this hand-held remote.

TALK LIGHT™ Too Timer

The timer allows the Talk Light to be preprogrammed to automatically turn on and off for the hours that are needed.
