(Florence lever shown with 5110 escutcheon plate.)

(Capri lever shown with 5110 escutcheon plate.)

(Milan lever shown with 5110 escutcheon plate.)

(Venice lever shown with 5110 escutcheon plate.)

(Roma lever shown with 5110 escutcheon plate.)

FLORENCE

ARTISTIC FLOURISH CONTINUES WITH THIS DESIGN FROM THE CITY OF LEONARDO, RAPHAEL AND MICHELANGELO WHERE EXQUISITE CRAFTSMANSHIP REACHES HEIGHTS OF REVERENCE.

CAPRI

THE HARMONY SEEN IN THE SHIMMERING BRIGHTNESS OF THE SEA AND SKY EVOKE THE VERY WORD CAPRI, AS REFLECTED IN THE TIMELESS BEAUTY AND ELEGANCE OF THIS VIBRANT DESIGN.

MILAN

A FASHIONABLE SENSE OF EXPRESSION STILL EMANATES FROM THIS EUROPEAN CENTER OF DESIGN. NOWHERE IN ITALY COULD OLD MEET NEW IN THE CLASSIC SIMPLICITY OF THE MILAN STYLE.

VENICE

ALL THAT IS VENETIAN IS AGELESS, INSPIRED, AND FAMOUS FOR CRAFTSMANSHIP AT THE HANDS OF A MASTER. THIS DESIGN CAPTURES THE CENTURES-LONG TRADITION OF ITALIAN ALLURE.

ROMA

APTLY NAMED FOR THE ETERNAL CITY, THIS TIMELESS DESIGN REFLECTS THE ENDURING STRENGTH AND BEAUTY OF AN ARTISTIC MASTERPIECE STILL CAPTIVATING FOR ITS CREATIVITY AND FUNCTION.

We Identify and S.T.O.P. Your Noise Problems

The Eagle Automatic Latch

SAFETY FOR AN UNCERTAIN WORLD

She and millions others are safe in their homes because for more than 100 years G-U has led the industry in innovation, design and technology. While others have tried to copy our Eagle lock, none has succeeded, making it North America's preferred operating multi-point lock system.

The unparalleled Eagle locking system:

- **Automatically and independently** engages at each latch with a unique, G-U patented design
- **Does not** require lifting of lever to engage locking points
- Has **multi-point latches** that extend to $\frac{3}{4}$ " (20 mm) and become deadbolts automatically when the door is closed
- Is locked by turning the thumbturn **90 degrees** inside or with key outside: special **babysitter function** locks the complete system simply by rotating the thumb turn from the inside, simple and intuitive North American operation
- Is constructed with **stainless steel** in critical areas for maximum corrosion resistance
- Incorporates a U.S. Cylinder with a **standard Schlage "C" Keyway** and is available in complementary trim styles and finishes

As the fenestration industry's leading innovator, G-U prides itself on quality hardware, knowledgeable technical assistance and the most reliable customer service.

The Eagle Automatic Latch

There are no finer products. No finer engineering. And no one more attentive to detail. Anywhere.

We Identify and S.T.O.P. Your Noise Problem

For more than 100 years, G-U Hardware's philosophy has been this: manufacture a superior lock incorporating the highest engineering standards. This commitment has made us the industry leader in creating innovative window and door products.

General Characteristics (common to all systems)

- System features U.S. key-in-knob cylinder for easy re-keying
- Schlage "C" keyways
- System features typical U.S. design with deadbolt above latch
- Backset (multiple backset offerings available)
- Distance between center of lever and center of cylinder: 3⁵/₈" (92 mm)
- Non-handed; latch easily reversible
- Multiple locking points ensure optimum security and weather tightness

There are no finer products. No finer engineering. And no one more attentive to detail. Anywhere.

G-U SECURY Automatic Door Locks – 60mm BACKSET

Unlocked

Locked

The advantages

- The latch bolts, after closing become 2 additional deadbolts
- The door is prevented from warping since it is always latched
- North American locking function, no lifting handles to engage the locking points
- No confusion, "I can't lock the door"
- Ease of operation, minimal effort required to close and secure the door (elderly, children, and baby sitter)
- Peace of mind slam shut multipoint locking system, with visual indication of locked/unlocked
- 90 degree turn deadbolt operation
- Proven European technology
- Available for standard height and 8' doors
- High grade 16 mm stainless steel faceplate for a clean door edge appearance, and weather resistance

G-U SECURITY Automatic Door Locks

Simply close the door

“Simply Secure” 3-deadbolt locking system activates automatically.

By simply closing the door the upper and lower $\frac{3}{4}$ ” (20 mm) latches will instantly engage and become 2 additional deadbolts for maximum security.

Your closed door is always protected against warping.

The door is locked when you simply turn the knob or key, engaging the 1” central deadbolt.
