No Construction Needed*

- ✓ **For Tackability, Sound Control and Aesthetics**
- ✓ **Economical** ✓ **Lightweight** ✓ **Structural**
- ✓ **Nailable** ✓ **Recycled**
- ✓ **Mold and Mildew Resistant**
- ✓ **Sound Deadening Panel**

**NRC's to 1.05  
STC's to 67**

When decor and design call for tackability and a fire rating, Noise S.T.O.P.™ “ONE STEP” 440 NC Designer Acoustic Wall System meets the challenge in five designer colors. We start with Class A-rated fiberboard, lightly sand and then laminate it with a stylish sustainable and 100 percent-recycled Guilford FR 701 fabric to create beautiful walls in quartz, cherry neutral, blue neutral, grey mix and straw fabric. When we laminate the ultra-tackability Noise S.T.O.P.™ “ONE STEP” 440 NC with fabric we create a wall panel that can be tacked and re-tacked.

Noise S.T.O.P.™ “ONE STEP” 440 NC Designer Acoustic Wall System is the perfect finish for any office or conference. Or install it standalone as a tackboard in schools, offices and other public buildings, knowing that it will last and last.

Also available in optional cork face or fabric wrapped fiberglass.

**MATERIAL:** 440 NC Fire rated, recycled, light sanded fiberboard, with Guildford FR 701 fabric face.

**FEATURES:** Create beautiful, easy to install acoustic walls.

**APPLICATIONS:** Common walls, apartments, condos, townhouses, offices, meeting rooms, hotels, home theaters, studios, music rooms, classrooms, churches, museums, retail stores and any wall that needs sound absorption and sound blocking.

**SIZE:** 1/2" x 2' x 4' (optional 4' x 8' or 4' x 10' available).

**COLOR:** Guilford FR 701, blue neutral, cherry neutral, straw, quartz and grey.

**INSTALLATION:** Direct glue with STOPADA-29. Side clips or plastic T-Mold system available.

**FLAMMABILITY:** ASTM E-84 Class 1-A, Nonflammable.

As a most environmental building product, 440 NC SoundBarrier as well as several other products with the LEED™ logo, have the potential to contribute towards credits in several U.S. Green Building Council (USGBC) LEED™ categories due to its 98 percent post-consumer content by weight and thermal insulating properties.
